NEXT GENERATION THREATS

IT SECURITY EVENT

STOCKHOLM 18 SEPTEMBER 2012

Success for TechWorld and Next Generation Threats

Next Generation Threats was held at the Museum of Technology in Stockholm, Tuesday September 18th 2012. Over 200 participants took part in the seminars and got to listen to six of the worlds most qualified cyber security experts, ask questions and enjoy live hacks as well as exciting panel discussions. In the participant survey, the event was given a score of 4.1 out of 5 possible for the event as a whole. The mean value of the speakers ended up on 4,1 (two of them had 4,7!) which is a fantastic result!

"Very good and relevant information!"

"Must say that it was an excellent event! I enjoyed it all day long. The best part was to listen to "the couch" discussing without the moderator, going on by themselves. More of that, please!"

"Two thumbs up, see you next year =)"

"Overall, a very good event! The icing on the cake was absolutely the panel debates, very interesting. It gave the whole event an extra dimension. I definitely want to come next year too!"
